# Instructions & Helpful Tips

The Temo Inc Price Guide is a complete guideline to enable you to quote nearly any project that you are seeking to complete. If your job site is larger, taller or a unique design, you may want to review this with a Temo Representative or Engineering. If the project goes beyond the book in any way, we would recommend that you seek to obtain an Architectural Drawing Fee from the homeowner to allow you to present an accurate quote for a presentation. There may be a small fee for extensive drawing projects.

■ **TRANSOM WINDOW** – This could be a top or bottom transom on a wall section. Please see guidelines for standard sizes.

■ **TRAPS/TRAPEZOID TRANSOMS** – This is a TRAPEZOID SHAPED window usually above a window sash. This is primarily a feature that is installed on the job site after installation is completed. Accurate measurements are needed.

■ **GLASS TO GO** – This Kit of untempered glass that can be ordered from Temo to install the Traps/ Trapezoid Openings.

■ **ADD OR SUBTRACT WALLS** – This is used to price out Walls Under Existing or to REMOVE or ADD more/less walls from the quote. You can combine multiple sections to complete a Walls Under Existing Lanai Quote (**100% ADD / 75% SUBTRACT**).

■ **COLORS AVAILABLE:** White, Bronze, Sandstone, and **Black for gutter & fascia trim only.**

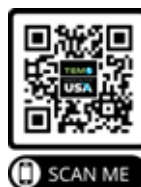

■ **SIGNATURE COLLECTION** – Top of the line Sunroom with floor to ceiling windows and other luxury options. Any project that exceeds 9' tall, set at 10' tall walls and loaded with Glass Top to Bottom. Includes Bottom Glass Transoms, any window style (Premier View (80"), and Vista View (60") along with Top Glass Transoms.

■ **SKYVIEW SKYLIGHTS** – This is an HPG 340 I.G. GLASS that has a standard Blue LED Lighting available. (Blue is the only color). Available for Sunrooms & Patio Covers/Pavilions. Skyview roof system cannot be shingled.

■ **WALLS UNDER EXISTING** – Refer to it as "LANAI PORCH MAKEOVER", "PATIO MAKEOVER" or "PATIO PORCH MAKEOVER".

■ **TO ACTIVATE THE WARRANTY** – The homeowner must fill out the tear-off portion on the warranty certificate and mail to Temo Inc. You can also register online at: [www.TemoInc.com/warranty](http://www.TemoInc.com/warranty).

## ■ THERMAL ROOF LOAD SPAN CHART

All spans are the outside wall.

4.25" THERMAL ROOF PANEL	DESCRIPTION	LOAD / SPAN	PRICE
	.024 1# - Roof Panel	10 lb - 18'-0" 20 lb - 13'-0" 30 lb - 10'-6" 40 lb - 9'-0"	\$21 PER SQ FT
	.032 1# - Roof Panel	10 lb - 19'-0" 20 lb - 15'-0" 30 lb - 12'-0" 40 lb - 10'-6"	\$24 PER SQ FT
	.032 2# - Roof Panel	10 lb - 20'-0" 20 lb - 18'-3" 30 lb - 15'-6" 40 lb - 13'-1" 50 lb - 12'-0" 60 lb - 11'-0" 70 lb - 10'-0" 80 lb - 9'-6" 90 lb - 8'-0" 100 lb - 7'-6"	\$36 PER SQ FT

**NOTE:** All roof panels are in 4' increments. This price guide is based on a 30-pound load.

To estimate the cost for a 10 & 20 pound load:

1. Calculate the square footage of the roof.
2. Refer to the "Thermal Load Span Chart" to find the price difference per square foot between the 30-pound and 10-pound loads.
3. Multiply the price difference by the total square footage and subtract this amount from the published price.

### EXAMPLE:

For a 13' roof panel (12' projection) x 20' width = 260 sq ft:

- Price difference: \$3 per sq ft
- Total deduction: \$3 x 260 sq ft = \$780

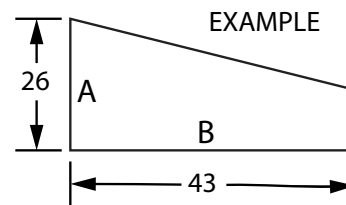

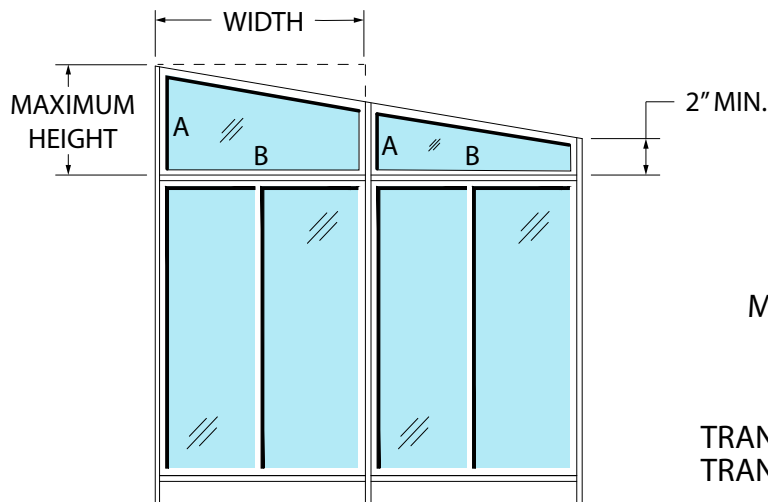

You can estimate a \$780 deduction from the published price.

**THIS BOOK IS INTENDED TO BE A PRICE GUIDE.  
ACTUAL PRICES MAY VARY AND WILL DEPEND ON PRODUCT AND CONFIGURATION.**

# Custom Trapezoid & Transoms 206 & 406 Only

**SINGLE GLASS (NON TEMPERED) U.I. PRICE:  $A + B = \text{U.I.} \times \$11.80$**

**INSULATED GLASS U.I. PRICE:  $A + B = \text{U.I.} \times \$20.24$**

$$\begin{aligned} \text{MAXIMUM HEIGHT} &= A = 26 \\ \text{WIDTH} &= + B = 43 \\ \text{TOTAL U.I.} &= 69 \times \$ \end{aligned}$$

TRANSOM RETAIL 206 = \$814.20  
TRANSOM RETAIL 406 = \$1,396.56

## TRANSOM / TRAPEZOID:

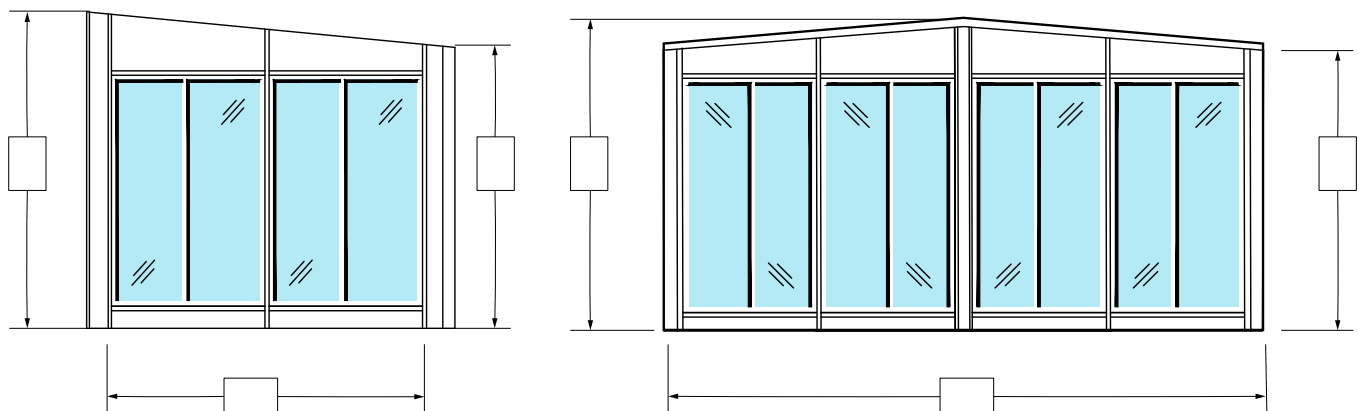

2" System by dealers only. Window wall will come custom ready (transom lineal kit included). Glass to go is available and includes 5 sheets of glass at 48" x 60" plus a glass cutter, gloves, and carrying case. The entire kit is \$510. Supplies included can fulfill 2 or more jobs (depending on job size).

## FACTORY TRANSOM / TRAPEZOID:

Exact measurements are to be submitted to Temo. Once submitted, all measurements are final.

Custom trapezoidal insulated glass (I.G.) and single glass transoms (non-tempered) are priced based on united inches (U.I.). To determine U.I., Add height "A" + width "B" of opening as shown above. To determine price, multiply the U.I. By 206 - \$11.80 406 - \$20.24

**NOTE: The lowest leg height can be no less than 2". Custom I.G. can be ordered through Temo and factory installed, or dealer outsourced.**

**Diagrams above depict measurements required when ordering custom transoms.**

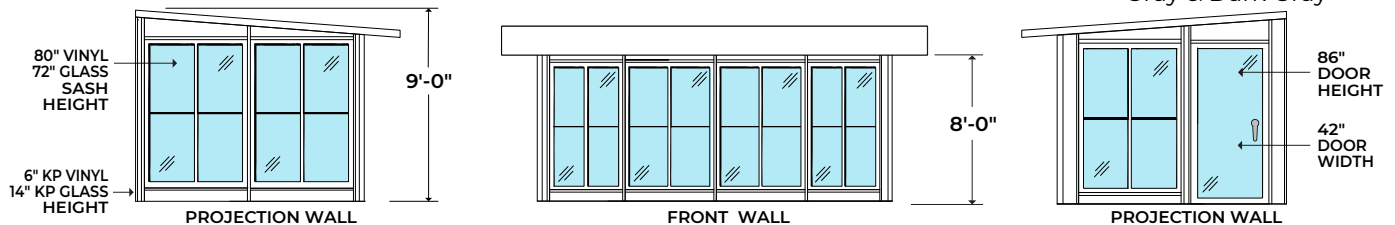

# Wall System Dimensions

Window sections, top, and bottom transoms are available in standard sash widths of 36", 43", and 55". Sizes outside these standards are subject to custom charges.

## ULTIMATE SCREEN ROOM: VINYL / GLASS - 2" SYSTEM

- White or Sandstone Only
- Screens Only
- Vinyl Window Glazing (80")
- Single Glass (72")

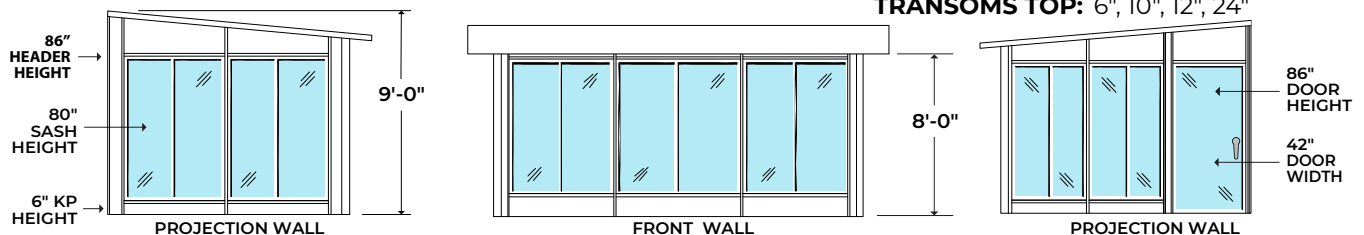

**WALL SECTIONS:** 43", 55"  
**FIXED LITES:** 22"  
**GLASS SWING DOOR:** 42" x 86"  
**VINYL COLORS:** Clear, Bronze, Smoke Gray & Dark Gray

## PREMIER VIEW WALL: 3 5/8" SYSTEM

- White, Bronze or Sandstone
- 206 HPG Single Glass
- 406 HPG Thermally Broken IG

**WALL SECTIONS:** 43", 55"  
**FIXED LITES:** 12", 19", 22.5", 28.5"  
**SWING DOOR:** 42" x 86"  
**PATIO DOOR:** 5', 6', 8'  
**TRANSOMS TOP:** 6", 10", 12", 24"

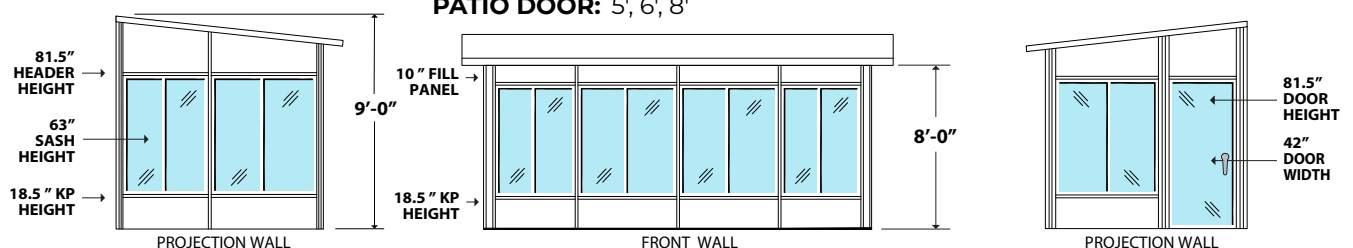

## VISTAVIEW WALL: 3 5/8" SYSTEM

- White, Bronze or Sandstone
- 206 HPG Single Glass
- 406 HPG Thermally Broken IG

**WALL SECTIONS:** 36", 43", 55"  
**FIXED LITES:** 12", 19", 22.5", 28.5"  
**SWING DOOR:** 42" x 86", 36" x 80"  
**PATIO DOOR:** 5', 6', 8'

**TRANSOMS TOP:** 6", 10", 12", 24"  
**TRANSOMS BOTTOM:** 12, 24"  
**KICK-PLATE:** 18"

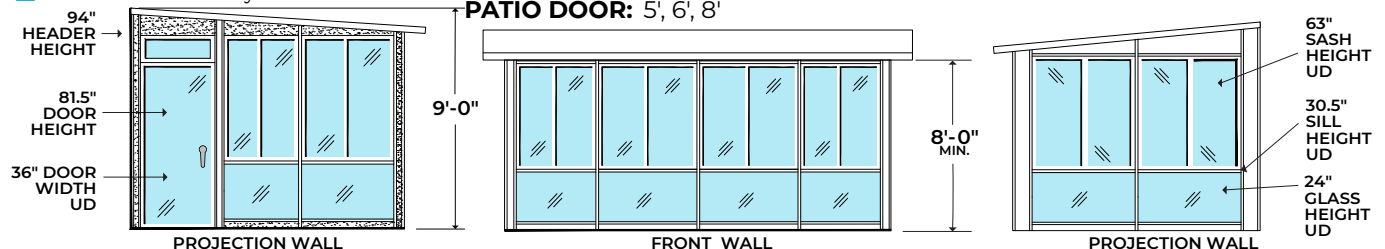

## UPPER DECK WALL: 3 5/8" SYSTEM

- White, Bronze or Sandstone
- 206 HPG Single Glass
- 406 HPG Thermally Broken IG

**WALL SECTIONS:** 36", 43", 55"  
**FIXED LITES:** 12", 19", 22.5", 28.5"  
**SWING DOOR:** 36" x 80"  
**PATIO DOOR:** 5', 6', 8'

**TRANSOMS TOP:** 6", 10", 12", 24"  
**TRANSOMS BOTTOM:** 12, 24"  
**KICK-PLATE:** 10"

# ULTIMATE SCREEN ROOM

**With Vinyl Windows**

**With Glass Windows**

# ULTIMATE SCREEN ROOM 2" WALL SYSTEM

Value View (Glass) or Vinyl View (Vinyl) / 8' to 9' Wall Height

**Ultimate Screen Room / Value View / Vinyl View: Studio – White**

**Ultimate Screen Room / Value View / Vinyl View: Studio – Sandstone**

**Ultimate Screen Room / Value View / Vinyl View: Low Cathedral – White**

**Ultimate Screen Room / Value View / Vinyl View: Studio – White**

**Ultimate Screen Room / Value View / Vinyl View: Low Cathedral – White**

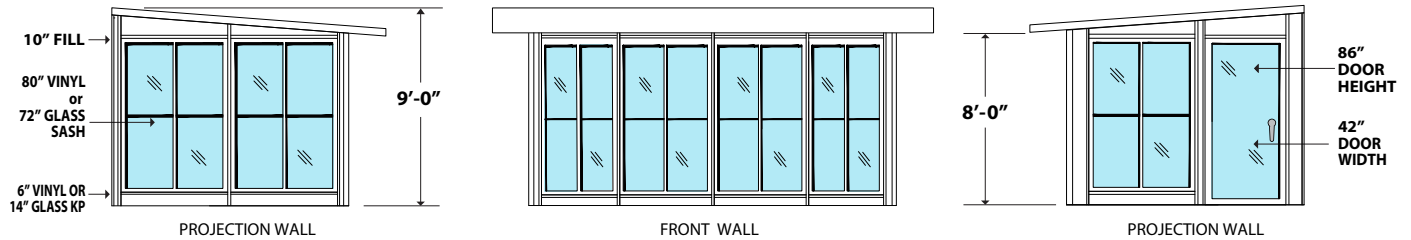

# Ultimate Screen Room 2" Wall System

## Value View (Glass) or Vinyl View (Vinyl) / 8' to 9' Wall Height

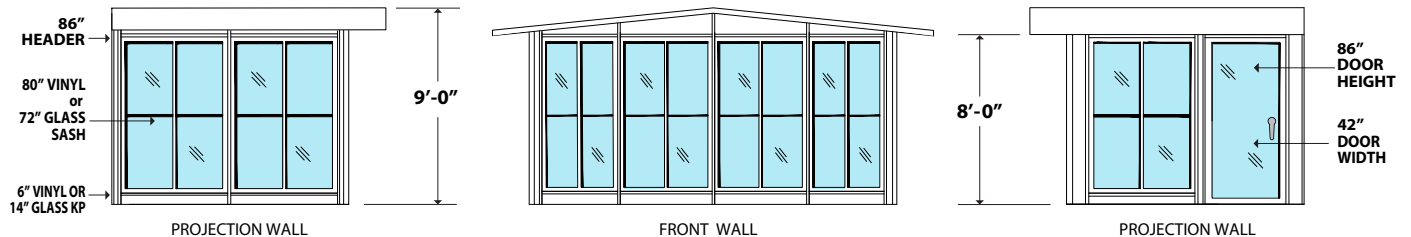

### IMPORTANT PRODUCT DESCRIPTION

Available in Vinyl Window (80" Height) or HPG Single Glass (72" Height ONLY)  
 STANDARD SASH WIDTH 43" & 55" **FOR MAXIMUM EFFICIENCY** FOR ALL DESIGNS  
 COLORS: WHITE OR SANDSTONE ONLY

### STUDIO – 80" VINYL (**RECOMMENDED**) OR 72" SINGLE GLASS

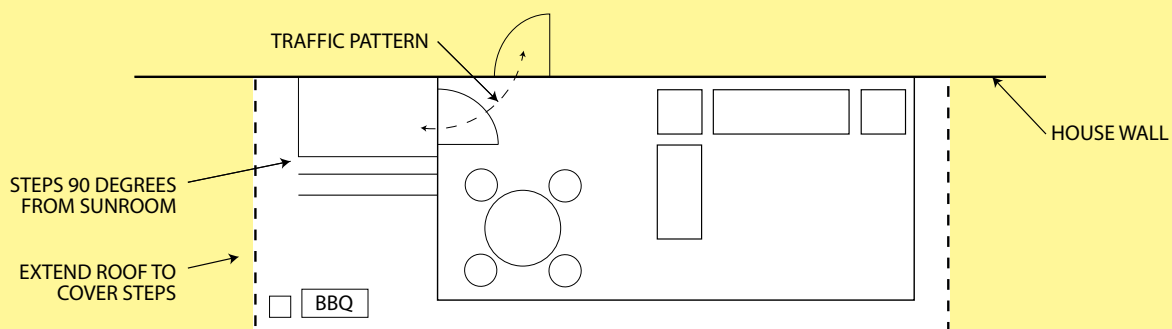

### LOW CATHEDRAL – 80" VINYL (**RECOMMENDED**) OR 72" SINGLE GLASS

These rooms are configured with top and bottom Temkor, (1) prime entry door, standard roof, gutter, architectural roof cleats, hardware, and extruded aluminum electrical – both horizontal & vertical raceway (electrical ready). Electrical wire and plugs are not included.

#### IMPORTANT NOTE:

For the most efficient layout, the door should be located against the wall of the house. Please note that if you would like to add an additional door for full room in lieu of a window section, the cost to cover the swap is roughly **\$1495**. Adding a door or changing the door location will impact the room's design layout.

**ROOF PANELS WITH FAN BEAM(S), ADD \$12.00 RETAIL PER LINEAR FOOT - PER ROOF PANEL**

**All applicable taxes and freight from our plant are extra. Prices are subject to change without notice.**

# Ultimate Screen Room 2" Wall System

## Value View (Glass) or Vinyl View (Vinyl) / 8' to 9' Wall Height

Available in Vinyl View Window (80" Height) or  
Value View HPG Single Glass (72" Height ONLY)

Standard Sash Width 43" & 55" for All Designs – Colors: White or Sandstone Only

INCLUDES: Temo 4¼" Roof with 1' Overhang & One Swing Door

ROOF STYLE: Studio or Low Cathedral

**SKYVIEW AVAILABLE ON STUDIO ONLY**

		2" Vinyl & Screen	27,895	31,695	32,395	35,695	36,595	40,295	40,995	44,095

**NOTE:** Please review the type of project that you are trying to build because there are some limitations with this system. For more options consider designing with the 206 or 406 Wall Systems.

**All applicable taxes and freight from our plant are extra. Prices are subject to change without notice.**

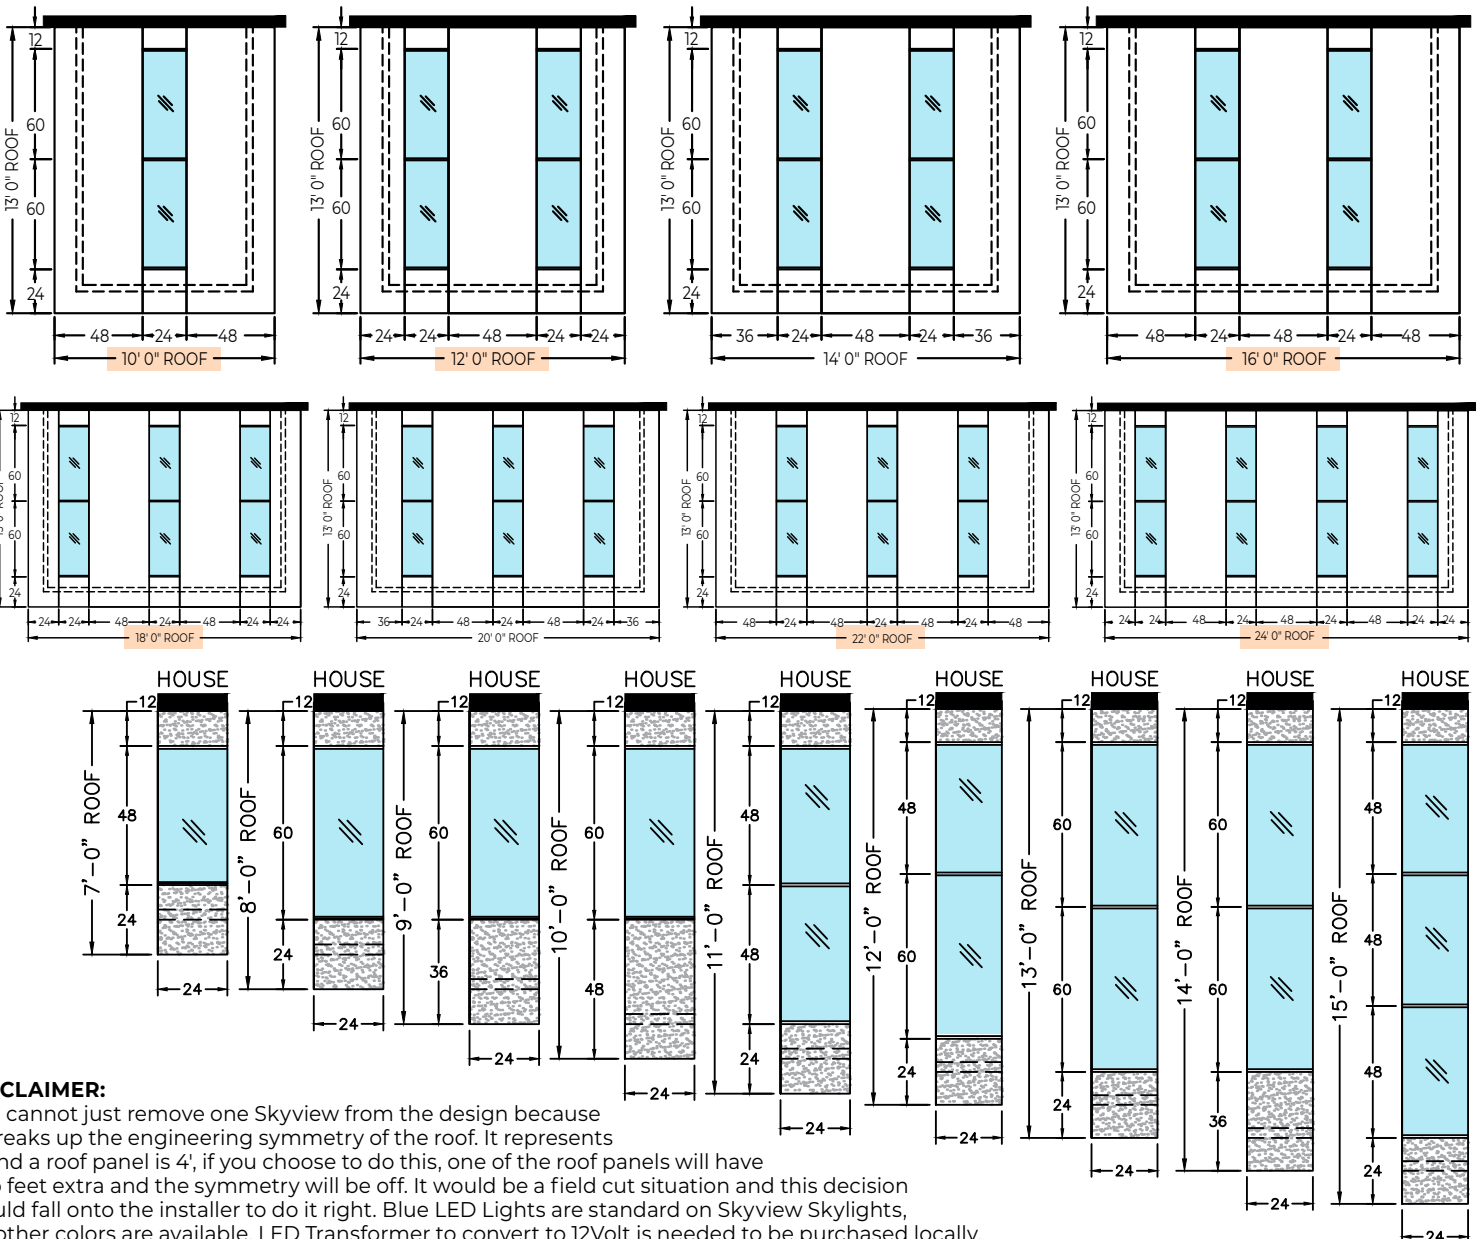

# Skyview Roof Panels Includes LED Light – BLUE ONLY

**HPG 340 I.G. GLASS / NO LAYOUT CHANGES**

**SKYVIEW PRICING IS OVER AND ABOVE THE ROOF PRICE ON ALL PATIO COVERS & PAVILIONS**

**Skyview Roof System CANNOT be Shingled / AVAILABLE ON STUDIO STYLE ONLY**

	ROOF	WALLS / BEAMS	ROOF WIDTH -ORANGE IS THE MOST COST EFFECTIVE							
			10'	12'	14'	16'	18'	20'	22'	24'
<b>PROJECTION</b>	9'	8'	+ 2,795	+ 5,795	+ 6,195	+ 6,195	+ 8,795	+ 9,695	+ 9,795	+ 12,495
	11'	10'	+ 3,295	+ 6,895	+ 7,395	+ 7,395	+ 9,995	+ 11,495	+ 11,995	+ 13,795
	13'	12'	+ 3,495	+ 7,495	+ 7,995	+ 7,995	+ 10,895	+ 12,695	+ 12,995	+ 16,095
	15'	14'	+ 3,495	+ 7,495	+ 7,995	+ 7,995	+ 10,895	+ 12,695	+ 12,995	+ 16,095

## DISCLAIMER:

You cannot just remove one Skyview from the design because it breaks up the engineering symmetry of the roof. It represents 2' and a roof panel is 4', if you choose to do this, one of the roof panels will have two feet extra and the symmetry will be off. It would be a field cut situation and this decision would fall onto the installer to do it right. Blue LED Lights are standard on Skyview Skylights, no other colors are available. LED Transformer to convert to 12Volt is needed to be purchased locally. Wires are included to hook up the LED Lights to a power supply and an ON/OFF switch may also be needed to control the lights.

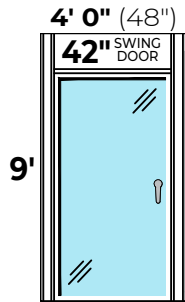

**All applicable taxes and freight from our plant are extra. Prices are subject to change without notice.**

### DISCLAIMER:

You cannot just remove one Skyview from the design because it breaks up the engineering symmetry of the roof. It represents 2' and a roof panel is 4', if you choose to do this, one of the roof panels will have two feet extra and the symmetry will be off. It would be a field cut situation and this decision would fall onto the installer to do it right. Blue LED Lights are standard on Skyview Skylights, no other colors are available. LED Transformer to convert to 12Volt is needed to be purchased locally. Wires are included to hook up the LED Lights to a power supply and an ON/OFF switch may also be needed to control the lights.

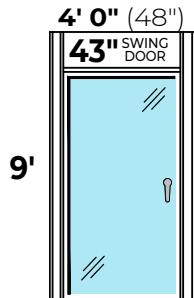

**All applicable taxes and freight from our plant are extra. Prices are subject to change without notice.**

## DISCLAIMER:

You cannot just remove one Skyview from the design because it breaks up the engineering symmetry of the roof. It represents 2' and a roof panel is 4', if you choose to do this, one of the roof panels will have two feet extra and the symmetry will be off. It would be a field cut situation and this decision would fall onto the installer to do it right. Blue LED Lights are standard on Skyview Skylights, no other colors are available. LED Transformer to convert to 12Volt is needed to be purchased locally. Wires are included to hook up the LED Lights to a power supply and an ON/OFF switch may also be needed to control the lights.

**All applicable taxes and freight from our plant are extra. Prices are subject to change without notice.**

## 63" or 80" Sash Height / 8' up to 10' Wall Height

### IMPORTANT PRODUCT DESCRIPTION

**FEATURING:** 10' Back Wall Height & 8' Front Wall Height

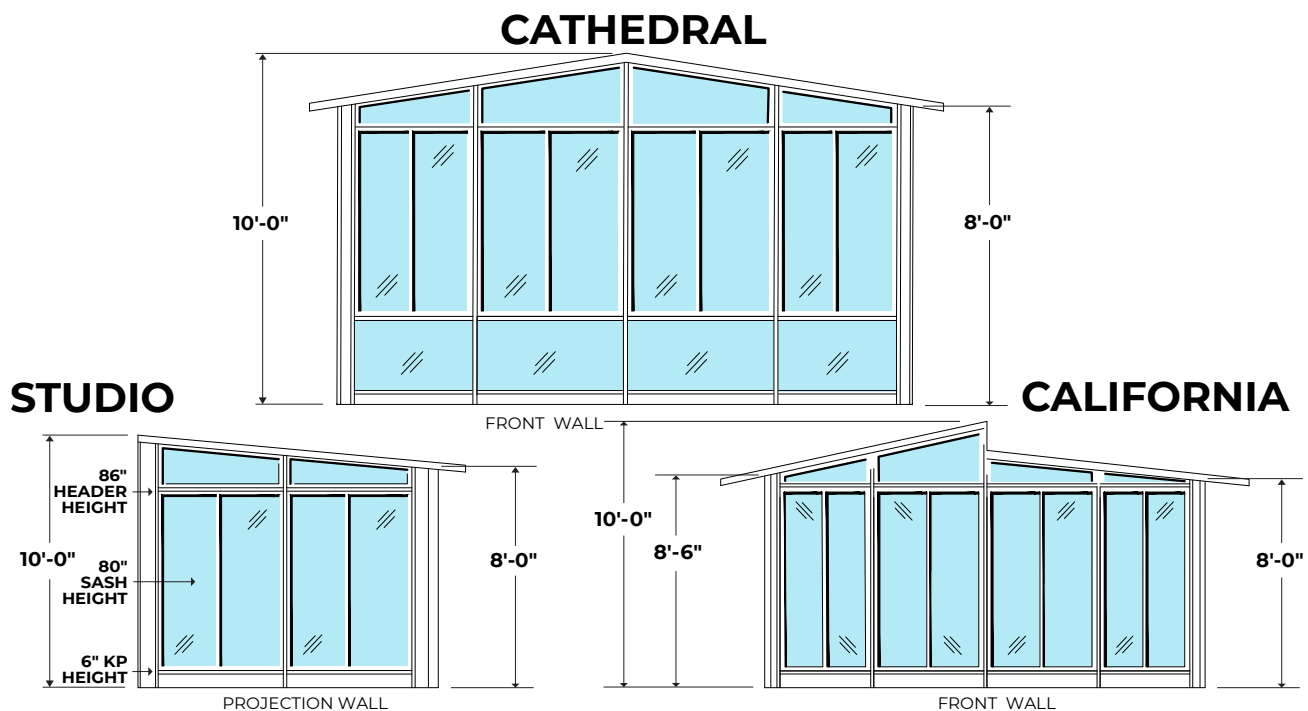

Floor to Ceiling All Glass Trapezoids & Transoms

**NOTIFY TEMO IF SHINGLED ROOF IS TO BE INSTALLED BY THE DEALER**

**(For Snow Load Purpose – Shingles Add 5 lbs Per Square Foot)**

Available in 206 HPG Single Glass or 406 HPG Thermally Broken IG

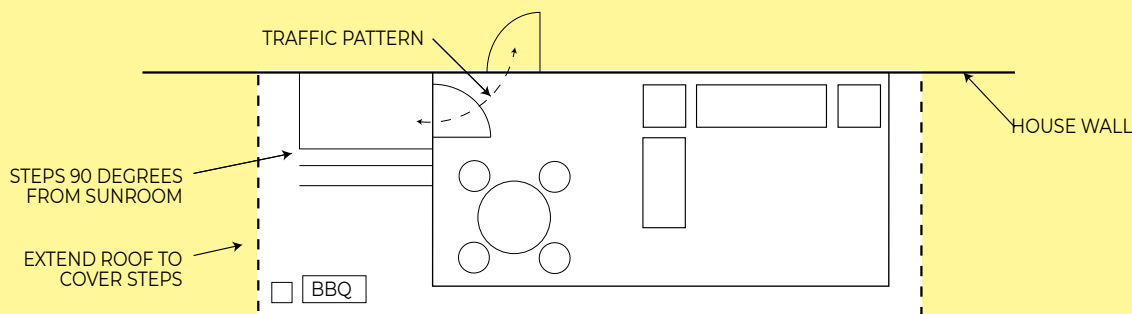

Windows & Both Top & Bottom Transoms are included with Premier View, Vistaview, or Upper Deck Wall System / Colors: White, Sandstone, or Bronze

These rooms are configured with top and bottom Temkor, (1) prime entry door, standard roof, gutter, architectural roof cleats, hardware, and extruded aluminum electrical – both horizontal & vertical raceway (electrical ready). Electrical wire and plugs are not included.

### IMPORTANT NOTE:

For the most efficient layout, the door should be located against the wall of the house. Please note that if you would like to add an additional door for full room in lieu of a window section, the cost to cover the swap is roughly **\$1495**. Adding a door or changing the door location will impact the room's design layout.

**ROOF PANELS WITH FAN BEAM(S), ADD \$12.00 RETAIL PER LINEAR FOOT - PER ROOF PANEL**

**All applicable taxes and freight from our plant are extra. Prices are subject to change without notice.**

# Signature Collection: 3<sup>5</sup>/<sub>8</sub>" Wall System

## 63" or 80" Sash Height / 8' up to 10' Wall Height

ROOF STYLES: Studio, Low Cathedral, Cathedral, or California / 8' to 16' Projection

WALL SYSTEM: Premier View, Vistaview, or Upper Deck / Standard Sash Width 43" & 55"

WINDOWS: 206 HPG Single Glass or 406 HPG Thermally Broken IG

COLORS: White, Sandstone, or Bronze | SWING DOOR: 43" PV or VV / 36" UD

INCLUDES: Temo 4<sup>1</sup>/<sub>4</sub>" Roof with 1' Overhang

**SHINGLED ROOF (BY DEALER) / NO SHINGLES ALLOWED ON SKYVIEW ROOF!**

You cannot just remove one Skyview from the design because it breaks up the engineering symmetry of the roof. It represents 2' and a roof panel is 4', if you choose to do this, one of the roof panels will have two feet extra and the symmetry will be off. It would be a field cut situation and this decision would fall onto the installer to do it right. Blue LED Lights are standard on Skyview Skylights, no other colors are available. LED Transformer to convert to 12Volt is needed to be purchased locally. Wires are included to hook up the LED Lights to a power supply and an ON/OFF switch may also be needed to control the lights.

**All applicable taxes and freight from our plant are extra. Prices are subject to change without notice.**

# Center Vent & Slider Door Systems

## CENTER VENT REQUIREMENTS

- Vinyl or Standard Glass,
- **NO CUSTOM GLASS**
- Door Height is 80"
- Limit Width to 10', 12', & 16' with Door Header Beam
- **HEADER IS REQUIRED**
- **REQUIRES ENGINEERING REVIEW**
- **CUSTOM TRAPS ARE NOT INCLUDED AND WILL REQUIRE A CUSTOM QUOTE**

**INCLUDES THE DOOR  
HEADER BEAM**
